

When it comes to choosing a fence, we understand you want a fence that provides you with ***what is important ...***

***Great design, easy to maintain and durable***, that's why at Armour Guard we choose to provide you with High-grade Steel & Colorbond Steel fence.

And with Armour Guard's ***Exceptional Engineering***, a decision to choose an Armour Guard fence is a decision wellmade.

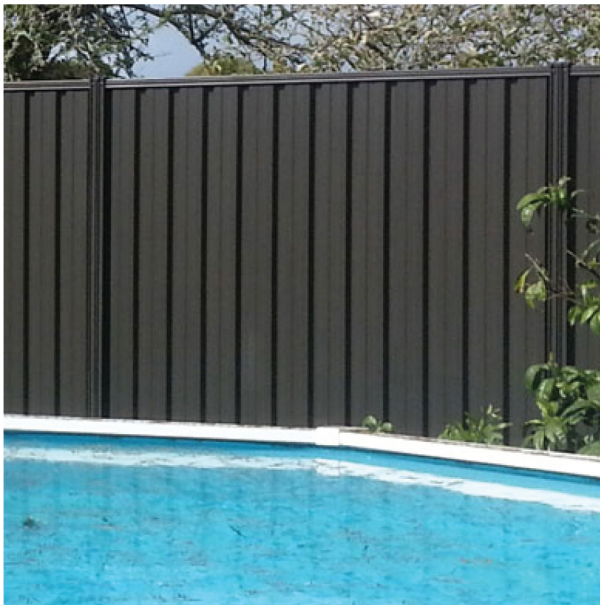

### **GREAT DESIGN:**

Colors to match your home's roof or casings to add designer curb appeal, matching your home's individual design.

# Fences that add longevity and designer curb appeal.

### **EASY TO MAINTAIN:**

Armour Guard steel privacy fence keeps you from restaining or painting every few years. No fading, simply remove debris and wash down with hose... that easy.

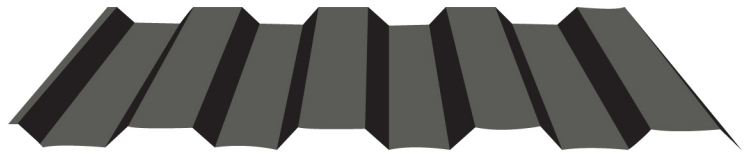

### **DURABLE:**

Armour Guard steel privacy fence will not rot, no expansion or contraction causing splitting, non combustible and will resist the progress of Fire. A Armour Guard fence decision will give you peace of mind that you've chosen a quality fence that will last for years to come.

# SPECIFICATION PAGE

## Metline Premium

Metline Premium is Engineered to be strong with S-11 strength panel posts, with more ribs for strength for long lasting design. Metline Premium has been designed to overlap cleanly, removing any rattling between tracks.

- 18 Gauge Steel Posts.
- 22 Gauge Steel Fence Panels.
- Standard Height of 6ft but can be cut down to fit whatever requirements.
- Extra Strength Steel Post Base for extra strength installation on concrete walls.

### FENCING COLOR RANGE

BLACK

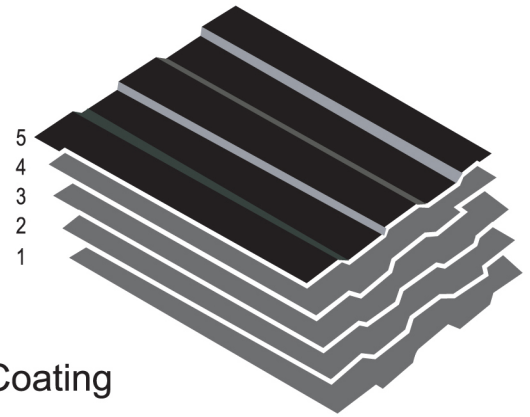

BEIGE

BASALT

## Colorbond Steel

Colorbond Steel is far more than just paint on steel or powdercoat.

1. The Steel base is manufactured to meet Canadian Standards, ensuring strict adherence to required grade and strength.
2. The base is then coated with industry leading Metallic Coating to provide enhanced corrosion resistance.
3. A thin Pre Treatment layer is applied to optimize the adhesion of further coatings.
4. A corrosion inhibitive Primer is baked onto surface.
5. A Topcoat of specially developed exterior grade paint is baked on to provide resistance to chipping, flaking and blistering and to ensure the finish retains its designer look longer.
